Tectonic's wide variety of LED grow lights presents to you the X Series, to be used for indoor gardening or greenhouses. For your hydroponics garden :

Up to 80% energy savings vs. Metal Halide & HPS grow lights  
Fast growth with large yields, and virtually no heat emitted  
Suitable for all stages of growth. Seed to Flower to Fruit  
LED grow lights have a 50,000+ hour lifecycle.  
Zero maintenance costs because there are no bulbs to replace, ever.  
All Tectonic products are Green Product and Environmentally friendly.

Contact your Tectonic sales for other models and availability of X Series LED Grow Lights

## X-50WP

Input: AC110V/220V

Watt: 50\*1W

Flux: 850-1000lm

Light: Red, Blue, Purple

Shield material: Aluminum, with three fan, to make good heat sink

Size: 175\*60mm

Easy to assemble, application: 430-465nm blue light and 620-665nm

Red light is essential for plants' photosynthesis,

Suit for any plants in hydroponics and soil based

## X-600WP

Input: AC110V/220V

Watt: 576\*1W

Flux: 9600-11000lm

Light: Red, Blue, Purple

Shield material: aluminum, with three fan, to make good heat sink

Size: 93\*31.4\*7cm

Application: 430-465nm blue light and 620-665nm

Red light is essential for plants' photosynthesis

Suit for any plants in hydroponics and soil based

## X-14WP

Input: AC110V/220V

Watt: 225\*0.06W

Flux: 240-280lm

Light: Red, Blue, Purple

Shield material: aluminum, with three fan, to make good heat sink

Size: 31\*31\*3.2cm

Application: 430-465nm blue light and 620-665nm

Red light is essential for plants' photosynthesis

Suit for any plants in hydroponics and soil based
